

multiclip® CLG 370

The innovative, patented **MULTICLIP® CLG 370** profiles rotate along the track base, compensating for slight floor elevation differences of up to 1/8" (3mm). The modular nature of the system allows it to join floors of any thickness by vertically stacking one, two or three "clips." A 5/8" (16mm) internal cavity acts as an expansion joint, allowing 3/16" (5mm) of differential movement. Typically, laminate wood flooring expands about 3/16" (5mm) per plank due to humidity.

MULTICLIP® CLG 370 A* Anodized Aluminum

This profile is available in three finishes: silver (AS*), gold (AO*), bronze (AB*). Thanks to the chromatic variations available, it matches most flooring types.

Mounts with Clip CL 80 P + aluminum base CLB 80 ANF/ANT.

MULTICLIP® CLG* Wood Laminated Aluminum

This melamine laminated aluminum profile is available in eight different finishes. The smoothly-embossed melamine is resistant to abrasion, easy to clean and blends easily with existing floors.

Mounts with Clip CL 80 P + aluminum base CLB 80 ANF/ANT.

MULTICLIP® CLG 370* Aluminum sublimated

The coating technique for sublimation allows a perfect simulation of the wood grain. The three wood shades Oak Decapè (RD), Oak Wengé (RW) and Grey Oak (RG), provide an excellent resistance wear resistance.

MULTICLIP CLG 370 OL Polished Brass

Innovative: the new modular MULTICLIP system can also be used with traditional brass profiles. This classic, solid brass profile offers excellent resistance to mechanical impact.

Mounts with clip CL 80 P + aluminum base CLB 80 ANF/ANT.

	Art.			Finish
Material: Extruded Anodized Aluminum Length: 8'10" (2.70meters) ☒ 35-7/16" / 4' 5" (0.90/1.35meters)	CLG 370	AS		Silver
	CLG 370	AO		Gold
	CLG 370	AB		Bronze
Material: Extruded Aluminum Laminate cov. Length: 8'10" (2.70meters) ☒ 35-7/16" / 4' 5" (0.90/1.35meters)	CLG 370	RS		Bleached
	CLG 370	AC		Maple
